BODY OF COFFRAIN NOT FOUND

"FISHERMAN JOHN" WAS UNSUCCESSFUL

Noted Expert Spent Seven Days at Lake George with his Son, John Jeremy, Jr., Exploring Lake

Said Lake was Shallow, 3 Feet to 6 Feet Deep, The Outlet Having a Depth of 16 Feet or More

* \$100 REWARD TO FIND THE BODY *

The executive committee of the mass meeting at the Chamber of Commerce, Dr. J. A. Thabes, Henry I. Cohen and Fred T. Lincoln, have offered a reward of \$100 to the person or persons finding the body of S. P. Coffrain before the freeze up.

After a search of seven days "Fisherman John," and his son, John Jeremy, Jr., of Stillwater, have been unable to find the body of Selwyn P. Coffrain, Brainerd business man who was drowned in Lake George while duck shooting.

The search made covered a square mile in extent. The weather was uniformly good, the lake, however, freezing on three different days.

With the water ice cold and the lake fed by springs, the body would be as hard as a rock, as though kept in a refrigerator, said "Fisherman John." Warm weather of the spring would form gases and bring the body up.

The lake was found to be quite shallow, ranging in depth from 3 to 5 and 6 feet, with a depth of 16 feet in the channel. The lake is about the size of Lake Harriet in Minneapolis.

Mr. Jeremy uses very light tackle in his work and few failures have marked his work in parts of the northwest.

The mass meeting at the Chamber of Commerce and the lists circulated raised a fund of over \$470 which will be used to pay for the search made and the residue will be disposed of according to the decision of another mass meeting.

All that remains to tell the tragedy of a life lost in the treacherous mud and waters of the lake is the water logged duck boat, bottom side up when found, and a water soaked cap and two dead ducks.

The Court of Honor lodge of 31 members, which gave \$25, has donated the same directly to Mrs. Coffrain. Secretary Fred T. Lincoln, of the Chamber of Commerce, has requested all who subscribed and have not yet sent in their money, to do so promptly.

The executive committee of the mass meeting met at the Chamber of Commerce this afternoon paid John Jeremy and son \$76.18, that representing his six days' work and expenses at Lake George, his fare from Wheaton to Brainerd and fares to Stillwater.

MAXWELL IS SENT TO FIELD

Bryan T. Mahon to Command British Forces in Ireland.

London, Nov. 6.—It is officially announced that Lieutenant General Bryan T. Mahon, commander of the British forces on the western frontier in Egypt, has been appointed to succeed Major General Sir John Maxwell as commander of the British forces in Ireland. General Maxwell is appointed commander-in-chief of the northern command in England.

Worst Mountain Wreck on Pennsylvania Line

(By United Press)
Altoona, Pa., Nov. 6.—Getting beyond control of the engineers while coming down the mountains on the Pennsylvania line the London freight train crashed into a number of engines standing on switches at the Holliday-Berg station. The worst mountain wreck ever known in these mountains is the result. Two of the dead have been removed.

18 Ounce Loaves to Cost 10 Cents

St. Paul, Minn., Nov. 6.—Six cent bread loaves weighing 12 ounces and ten cent loaves weighing 24 ounces will be substituted by an 18 ounce loaf costing ten cents, when Twin City bakers supply of \$8.50 flour on hand is exhausted, bakers announced today. With flour retailing at \$10.50 a barrel here today, dealers expected \$12 flour this year.

DEUTSCHLAND DASH FRIDAY IS LIKELY

New London, Conn., Nov. 6.—Captain Paul Koenig of the German submarine merchantman Deutschland, which arrived here Wednesday, indicates he will make his homeward dash Friday—probably late in the afternoon.

While the captain would not make a definite statement, activity in loading and overhauling the submarine indicate preparations are being made for an early start.

Captain Koenig visited the government submarine base and later conducted Commander Stirling and his officers through the Deutschland.

Fourteen members of the German embassy at Washington came here to greet the Deutschland's captain and crew.

TELLS POLICE OF MURDER

Authorities Hold Informant as a Suspect.

Redding, Cal., Nov. 6.—Alexander V. Naimen was arrested on suspicion here, after he had informed the police two unidentified men had come to his home and murdered Rosetta Durbin, his housekeeper, and John Pollock, his guest.

Investigation resulted in the finding of the decapitated bodies in front of Naimen's home.

DR. DUMBA. Retires Voluntarily From Austrian Diplomatic Service.

Dr. Theodor Constantin Dumba, former Austrian ambassador to the United States, at his own request, has been retired from the diplomatic service by Emperor Francis Joseph.

Dr. Dumba returned to Austria after he was declared to be persona non grata by the United States government more than a year ago and the fact that Austria has no sooner accepted his resignation from a post in which he could not serve was looked upon as showing that Emperor Francis Joseph desired to express displeasure with the United States in this fashion.

A Current Rumor that Force Ordered Parral

(By United Press)
San Antonio, Nov. 6.—Rumors are current that a part of Gen. Pershing's force has been ordered to Parral to protect the American interests after Gen. Carranza has evacuated the city and the Villistas have occupied it. Gen. Funston denied that such a move was contemplated.

El Paso, Nov. 6.—Every energy of the United States department will be directed toward obtaining a knowledge of the fate of Americans known to be in Parral when the Villistas occupied it.

American Steamer Lano Encounters Submarine

(By United Press)
London, Nov. 6.—The American steamer Lano encountered a submarine according to reports received here. Note—The Lano is 692 tons burden, registered at Manila and is 190 feet long. Cabled reports are not detailed as to whether she was sunk or merely met a submarine.

I.W.W. BATTLE AT EVERETT, WASH.

Citizens Drive Ship Loaded With Mob to Sea.

SIX ARE DEAD, FORTY INJURED

Agitators From Seattle Charter Steamer to Invade Hostile Town—Open Fire on Citizens Massed on Dock. Vessel Hastily Retreats.

Everett, Wash., Nov. 6.—Six men were killed and at least forty were wounded at the water front here when 250 Industrial Workers of the World, who had sought to invade Everett by steamer from Seattle, engaged in a pitched battle with a posse of sheriffs and citizens at the wharf.

Sheriff Don McRea, who was at the head of the force of 150 men, resisted the agitators, and was among the seriously injured. He dropped at the first volley from the steamer's deck.

The invasion of the I. W. W.'s was a carrying out of a threat they made last week to hold a mass meeting in the city in defiance of the citizens, who previously had driven them from town, and in vindication of their "constitutional rights."

I. W. W.'s Open Fire.

The fusillade was opened by the I. W. W.'s. A thousand shots were exchanged before the panic-stricken invaders could get their boat turned and fly to a safe distance. Many men were seen to fall on the decks and others, frightened as the bullets rained about them, jumped into the water, and, it is thought, were drowned.

When word that the Industrial Workers of the World expedition had left Seattle reached Everett a mill whistle was blown as a signal to the citizens and the posse gathered at the Commercial club for instructions. Under orders from Sheriff McRea, some of the men armed themselves with clubs, but many carried pistols.

According to witnesses the first shot was fired by a man who was standing near the Varona pilot house. He fired five shots in quick succession, they said. These seemed to be the signal for a fusillade from the boat.

Unarmed Citizens Flee.

The unarmed citizens fled, but those who carried pistols sought cover and returned the fire. The shooting continued until the Varona backed away from the wharf and turned toward Seattle.

The trouble between the Industrial Workers of the World and the authorities at Everett has been on for several months and was the outgrowth of a strike of shingle weavers here. After several minor outbreaks of violence during the strike, Sheriff McRea organized the citizens' committee and expelled all members of the Industrial Workers of the World from Everett.

On several occasions small parties of men have attempted to enter Everett but have been turned back by the sheriff.

SEATTLE POLICE TAKE CHARGE OF STEAMER

Seattle, Nov. 6.—The steamer Varona, which carried the Industrial Workers of the World expedition to Everett returned here with four dead and twenty injured on board.

When the Varona pulled into its slip the wharf was surrounded by policemen, some armed with shotguns and others with drawn pistols, and thirty national guardsmen. All the guardsmen stood at fixed bayonets and their belts filled with ball cartridges.

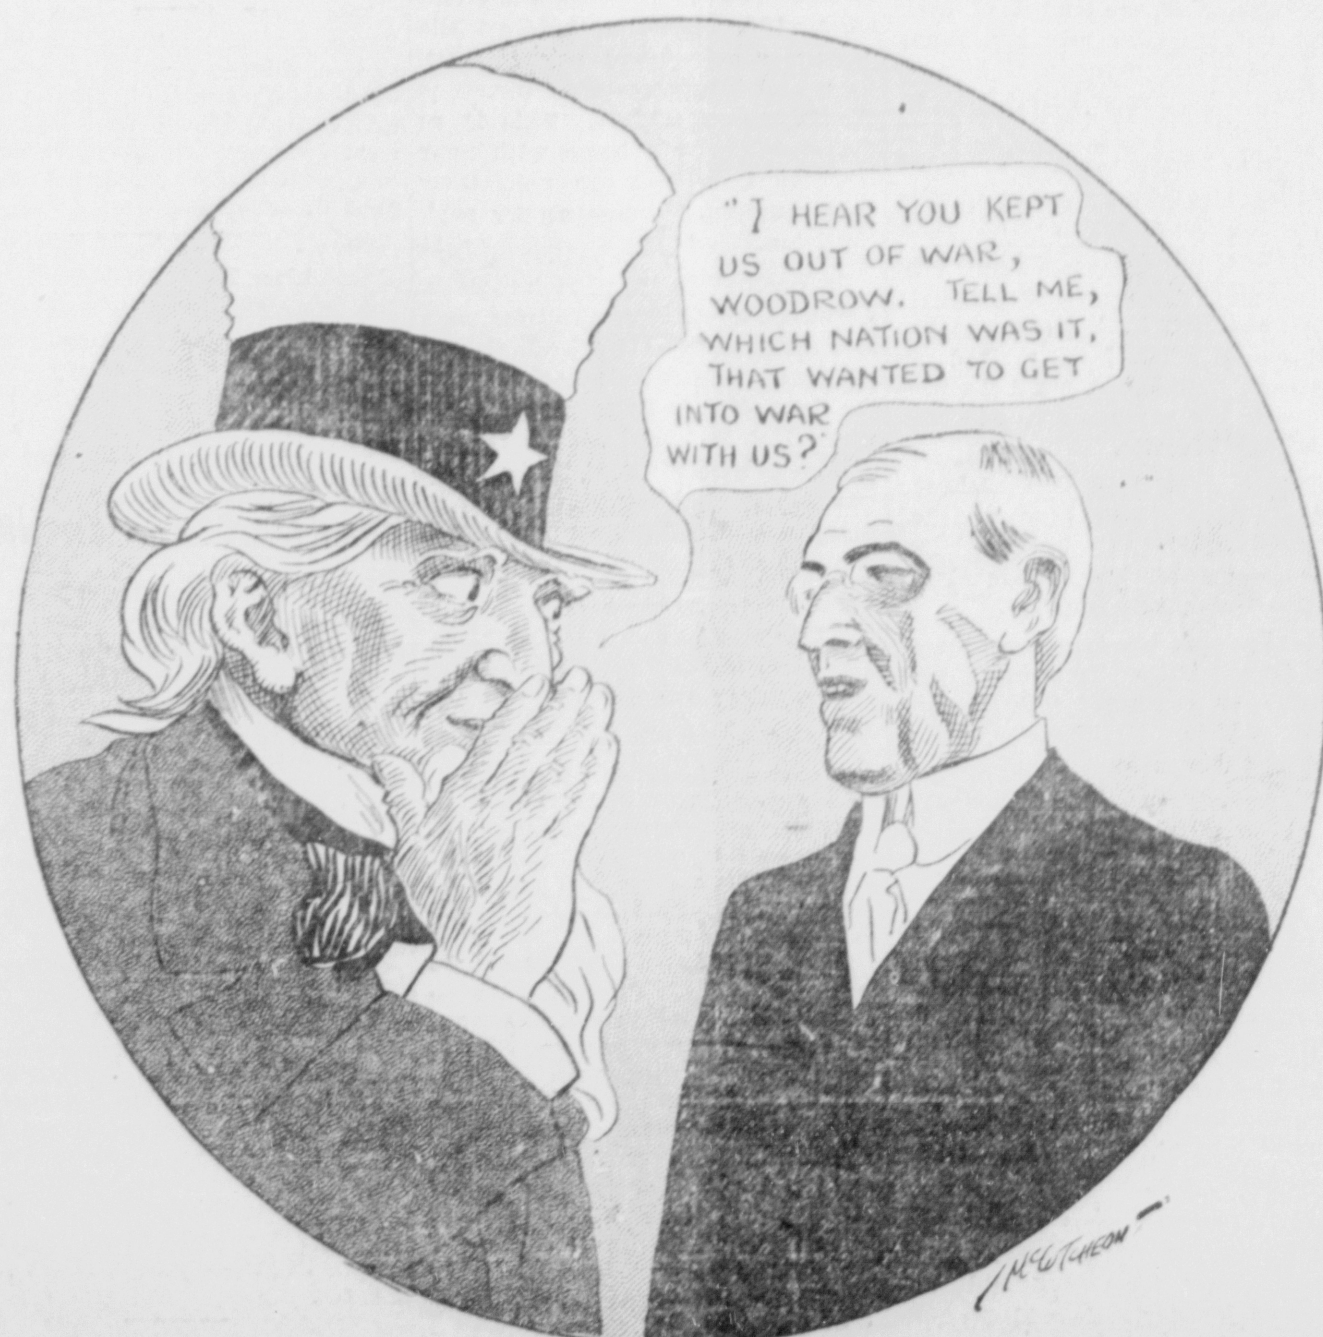

As the steamer drew alongside the pier, Captain of Police D. F. Willard shouted to Captain Wyman of the Varona not to land. Several members of the Industrial Workers aboard the boat started to clamber over the steamer's rail, but policemen halted them at the point of revolvers.

One gangplank was lowered and, under supervision of police, the wounded were taken off the boat first, assisted by their uninjured comrades, and were removed to the city hospital. The four dead were taken to the morgue.

All of the uninjured men were loaded into automobiles under heavy police guard and taken to the city jail.

fashioned mustard plaster, minus the
plaster and minus the blister!

You simply rub Musterole on the
spot where the pain is—rub it on
briskly—and usually the pain is gone.
No muss, no bother. Just comfort-
ing, soothing relief—first a gentle
glow, then a delightful sense of cool-
ness. And best of all, no blisters like
the old-fashioned mustard plaster used
to make.

Use Musterole for sore throat, bron-
chitis, tonsillitis, croup, stiff neck,
asthma, neuralgia, headache, congest-
ion, pleurisy, rheumatism, lumbago,
pains and aches of the back or joints,
sprains, sore muscles, bruises, chil-
blains, frostbitten feet and colds of the
chest (it often prevents pneumonia).

Get the Habit of Drinking Hot Water Before Breakfast

Says we can't look or feel right
with the system full
of poisons.

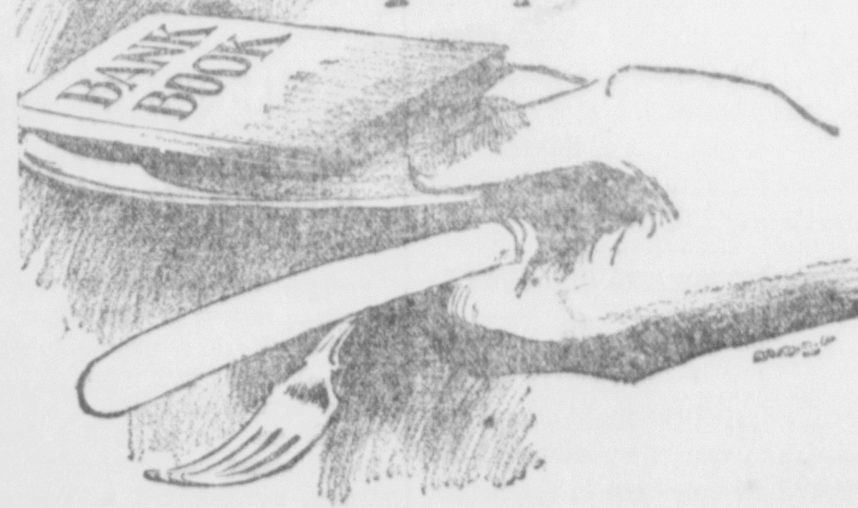

Millions of folks bathe internally
now instead of loading their system
with drugs. "What's an inside bath?"
you say. Well, it is guaranteed to per-
form miracles if you could believe
these hot water enthusiasts.

There are vast numbers of men and
women who, immediately upon arising
in the morning, drink a glass of real
hot water with a teaspoonful of lime-
stone phosphate in it. This is a very
excellent health measure. It is in-
tended to flush the stomach, liver, kid-
neys and the thirty feet of intestines
of the previous day's waste, sour bile
and indigestible material left over in
the body which if not eliminated every
day, become food for the millions of
bacteria which infest the bowels, the
quick result is poisons and toxins
which are then absorbed into the blood
causing headache, bilious attacks, foul
breath, bad taste, colds, stomach trou-
ble, kidney misery, sleeplessness, im-
pure blood and all sorts of ailments.

People who feel good one day and
badly the next, but who simply can
not get feeling right are urged to
obtain a quarter pound of limestone
phosphate at the drug store. This
will cost very little but is sufficient
to make anyone a real crank on the
subject of internal sanitation.

Just as soap and hot water act on
the skin, cleansing, sweetening and
freshening, so limestone phosphate and
hot water act on the stomach, liver,
kidneys and bowels. It is vastly more
important to bathe on the inside than
on the outside, because the skin pores
do not absorb impurities into the
blood, while the bowel pores do.

Accept Birth Control as an Established Fact

BY GEORGE MARTIN
United Press Staff Correspondent

New York, Nov. 6.—"The poor-country-behind-the-times officials of this country might just as well forget their moss grown statutes and accept birth control as an established fact. Modern science makes it as plain as night and day."

Mrs. Margaret Sanger, short, and plump, sat in her two-by-four hotel bedroom and said that today. Within the last 48 hours she has established semi-secretly in this city the first out and out birth control clinic in the U. S., the law and numerous arrests throughout the country to the contrary notwithstanding.

"The police are hunting my clinic today," she went on. "They can't find it. If they should they can't hurt it. It's an oral clinic and the law says nothing about not spreading birth control information orally. If they try I'm ready to carry a hard and bitter fight to the highest tribunal and with the best legal talent there is. For more secret clinics will be running in New York soon. In less than a year there will be clinics in Washington, Cleveland, Detroit, St. Paul, Minneapolis, Milwaukee, Denver, San Francisco, San Diego, Portland, Spokane and Butte. They are every one organized and ready to open the minute I say the word. The Washington clinic will open within a few days."

"Do the women like it, say you ought to go down in the neighborhood we have canvassed with secret circulars the last 48 hours. The women have been coming in by the dozens."

St. Paul, Minn., Nov. 6.—Mrs. Margaret Sanger need organize no secret clinics on birth control in St. Paul, when she comes as predicted. The clinics may be perfectly open and public and the police apparently won't object. This was indicated today, because Mrs. Sanger's recent address on birth control here was freely advertised, public and unmolested.

GRADUATION EXERCISES

Of Primary Department of Presbyterian Sunday School Held
Sunday Evening

The graduation exercises of the primary department of the Presbyterian Sabbath school were held last evening and took the place of the regular church service. There was a large crowd present and all enjoyed the work done by the children. Rev. W. J. Smith spoke on the work of the American Sunday School Union in the three counties of which he is the missionary. His part of the program was much appreciated by the children and the grown-ups as well.

The children who graduated were Harry Scott, Myrtle Robinson, Margaret Anderson, Iris Wolfert, Roy Anderson, Minnie Isaacson, Laurine Morrison. Mrs. Carl Bentley had charge of the graduation exercises and reviewed the children in the work they have been doing in preparation for graduation.

Mrs. A. M. Opsahl, superintendent of the primary, presented the children with their diplomas and with Bibles. Miss Hannah Falcoer welcomed the children into the intermediate department of the school. The primary meets at 9:30 o'clock in the morning and is open for all children under the age of ten years.

King-Sylvester

The wedding of Miss Lena King to Philip Sylvester was solemnized Saturday evening at the manse of the Presbyterian church at 8 o'clock. Rev. W. H. Lowrie officiating. They were accompanied by a wedding party of whom Archie Sylvester and Violet Flansberg served as best man and bridesmaid. The young couple have lived in Brainerd for some time and are well known. They are expecting to make their home in this city.

Thanksgiving Union Service

The Thanksgiving Union service will be held in the Presbyterian church November 30th, at 10:30 o'clock. The program will be announced later.

Marion Behme Party

Marion Behme had a party to which invitations had been extended to many of her little friends. Games were played, there was music and a luncheon, all contributing to a delightful afternoon.

Drama League Tuesday

The Drama League will meet on Tuesday afternoon with Mrs. Burnett, 708 North Sixth street. Mrs. F. A. Farrar and Miss Clara Small will read a play by Tolstol.

"SHARPS AND FLATS"

(By Fidd)

There is some talk of getting Master Louis Roos Gombert, the wonderful child pianist, for the second symphony concert. He has been pronounced the greatest artist of his age by pianists and critics wherever he has appeared and his audiences, which have largely been composed of musical people, have been enthusiastic in their appreciation of him and his art. It seems to us that nothing could be done that would stimulate a like interest in the piano than having this child wonder appear with our orchestra. We hope the symphony association will try to get him.

A great violinist writes the following: "If a good little fairy suddenly appeared before my vision, bidding me make a single wish, promising me instant fulfillment, for what would I ask? Perpetual youth, supreme intellect, glory, fame, filthy lucre? Indeed none of these! As a violinist I covet but one single gift, a gift for which I have an ardent desire, an insane craving, that is the power of producing upon my violin a tone of haunting beauty. This alone I long for. Nothing else would satisfy."

Just as the taste for good literature has to be developed, so must the taste for good orchestra music be cultivated.

The choral club have begun their rehearsals for the coming musical season and judging by the interest taken in the very first meeting we would say it will outclass all previous seasons. The second rehearsal will be held Tuesday evening at 8 o'clock at the city hall.

In London there is a conductor, George Shapiro by name, who for years has admitted women players into his orchestra as an integral part of the personnel. He believes that a higher aesthetic result is attained in an orchestra when players of both sexes are used, and his experiment is said to have been attended thus far by remarkable success.

William MacPhail is president of the great municipal chorus of 2000 voices being organized in Minneapolis. In New York a similar chorus has been formed in which will be heard 30,000 people.

The robin sings in the apple tree,
The blackbird swings on the thorn,
The day grows old and silence falls,
Leaving my heart forlorn.

Night brings rest to many a soul,
Yet mine is dark with woe,
Can I forget the days gone by
When my love I whispered low?

O robin, and those blackbirds brave
My songs of love have died
How can you sing as in bygone days
When she was by my side.

Four new members will be added to the symphony at their next rehearsal Friday evening.

A false string should never be kept on the violin. It cannot be correctly tuned, and it is impossible to make a good tone on it. There is no more music in a false string than there is in a cracked bell.

Edward MacDowell was a poet as well as a musician. The words of the Robin's song, as well as the music, were written by him, making an exquisite whole.

At the next meeting of the Junior Musical club to be held at the residence of Mrs. W. A. M. Johnstone, will be heard music of Edward MacDowell. Mr. Bergh will arrange four

string numbers from the piano score and numerous piano and vocal solos will be given. MacDowell is perhaps America's greatest composer of music in lyric and classical form.

An old riddle: When is it dangerous to go in a church? When there is a canon at the reading desk, a big gun in the pulpit, the bishop charging his clergy, the choir murdering the anthem, and the organist trying to drown the choir.

Under the regime of President Diaz young Mexicans who showed especial musical talent, were sent to Europe, provided with ample funds and educated there under the best masters entirely at the expense of the Mexican government.

We shall like to know as a matter of form if our "friend" who writes "up and down the scale" does it diatonically or chromatically. Is he turned in perfect fifths or does he sound a "wolf" tone. Does he read in the bass or treble clef, and how does he generally tenor in the fall. Friday night will tell the story.

Music lovers of the city will be greatly pleased upon hearing that Miss Drexler will be heard during the winter in a voice and violin recital all her own. Her teacher, Mr.

Miss Georgia Drexler

Bergh, feels justified in saying that Miss Drexler's tone already contains the quality required of a professional. Once having heard her play Nevin's "Rosary" you would forever remain her ardent supporter.

The Brainerd Musical club held their regular meeting last Saturday and the club listened with much interest to the program rendered by Miss Florence Loftus, a prominent soloist of Minneapolis. Mrs. Fred Parker is to be congratulated upon making possible the hearing of such an exceptional singer.

Season tickets are out for the three concerts to be given by the Brainerd Symphony and Choral club. It behooves every lover of music and booster of civic undertakings, to take a hand and make possible a successful season for two worthy organizations.

Students of music and children under 12 may purchase tickets for 25 cents.

A soulful tone is by no means an indication of an emotional nature.

It is a popular belief that if a violinist's playing is cold and colorless, he needs only to fall in love to give it color and warmth.

This column next week will also include hints to piano students.

What can be done by an earnest musician in a small town is made manifest in the excellent symphony orchestra formed in Owatonna, Minnesota, by Roy Graves. The orchestra numbers sixty-five pieces and has won praise from responsible critics.

Eugene Yaeye, one of the greatest living masters of the violin, is coming to America and will be heard in several cities during the season. Yaeye has been living in London since the beginning of the war forced him to leave Belgium. His three sons are fighting in the Belgian army.

Who so neglects learning in his youth loses the past and is dead for the future.—Euripides.

Mrs. Teresa Carreno, famous Venezuelan pianist, and Reinard Werrenrath, American tenor, appear in a joint recital Nov. 13 at the First M. E. church, Duluth.

Geraldine Farrar will be heard in recital in Duluth next Friday evening.

No large orchestra exists in Europe without government or civic support, whereas here, unless an orchestra "pays," too often it is allowed to die.

It is a great benefit to a pupil to be present at the lessons of other pupils. Thereby he sometimes gains more from observation than he does from his own lessons.

After the war American wages will be slaughtered and this country will need a protective tariff. American markets will be flooded with European products made by cheap and impoverished labor. Free trade under Wilson means low wages for American labor and low prices for the products of American farms. The election of a republican president and a republican congress, to give America republican legislation, means prosperity for this country.

The day of the straw vote has passed, tomorrow the voters will have an opportunity to register their real sentiments.

The laboring men of this country are beginning to realize that Charles Evans Hughes is their friend and tomorrow's vote will show it.

An embargo should be placed on the export of food stuffs to the end that the consumers of this country are not forced to pay double and treble the price for the necessities of life that they were before the war began.

The election of Frank B. Kellogg to the United States senate will give Minnesota the services of a man of integrity, prestige and ability, and he will go there with a position already won through the services he has performed for the nation in his long and splendid career. His talents and ability have already been demonstrated and recognized and he is fitted to at once enter upon the duties in all that the office implies. Minnesota is fortunate to have a man of his calibre to send to the senate as a colleague of that brilliant statesman Hon. Knute Nelson.

President Wilson's scheme for commissions for everything has been adroitly planned to make three jobs for deserving Democrats grow where only one would grow before.

Vice-President Marshall says Mr. Hughes is an echo of the past. Quite true. Of statesmanship, of patriotic performance and safe legislation.

OF SUPREME IMPORTANCE

It is of supreme importance for the industrial, farming, manufacturing, and labor interests, and for business generally that a republican congressman be elected from this district tomorrow.

A vote for the republican congressional nominee and for Charles E. Hughes for president means the return to power of the republican party next March.

Return of the republican party to control of the government and congress will mean a protective policy for American labor, industries and farm products, which labor and industry and our farmers do not now enjoy under the Underwood near-free tariff law.

This law took the protection off northern products and left it on southern products. The legislation was in the interest of the south, a small section of our country. This section is now in control of congress and the federal government.

Under the first ten months of the Underwood tariff law nearly four million workers were out of employment and bankruptcies were frequent. The European war began and a feverish prosperity, resulting principally from the sale of munitions of war and supplies to the European belligerents, occurred.

If it had not been for the war the same condition which existed for ten months under the Underwood tariff law, prior to the beginning of the conflict, would exist today.

The European war is certain to end and unless the republican party is in power, with establishment of a protective tariff policy for American labor, industries, and farm products, millions of workers will again be out of employment, factories will close, the farmers will experience low prices, and we will have the worst financial, industrial, and agricultural conditions in our history.

The European armies will return to farming and manufacturing when the war ends, and they will be able to produce manufactured articles and farm products much cheaper than can be done in the United States.

If these products of cheap European labor are allowed to come into the United States under the Underwood low tariff law, many of them free of duty, American labor under its higher wage scale, American farmers, under their better standards of living and American manufacturers will not be able to resist this foreign invasion.

The Wilson administration is a dismal failure. It is a failure in its economic policy under the Underwood low tariff law. The treasury is bankrupt. It is a failure in its foreign policies, particularly in Mexico, where more than five hundred Americans have been murdered, scores of American women outraged, and hundreds of millions of dollars of American property stolen or destroyed without redress.

If the citizens of this district want these conditions changed, and desire a strong able government in Washington, with a republican house and senate pledged to the protection of American labor, industries, farm products, and business they will vote the republican ticket next Tuesday.

The election of a republican congressman from the Sixth district is essential in order to uphold the hands of a republican president, and a vote for Harold Knutson is as necessary as a vote for Charles E. Hughes.

Congress didn't want a Tariff Commission composed of \$12,000 men, those \$7,500 salaries being designed for \$1,200 men.

DE FACTO TROOPS ABANDON PARRAL

Refugees Say Garrison Is In Hands of Bandits.

FATE OF AMERICANS UNKNOWN

Report of Killing of Dr. Fisher at Santa Rosalia Is Unconfirmed—Wires Between Chihuahua and Parral Are Down, Report Says.

El Paso, Tex., Nov. 6.—Parral has been abandoned by the Carranza garrison under command of General Luis Herrera, according to passengers arriving in Juarez by train from Chihuahua City. Nothing could be learned, however, of the Americans there they said.

Execution Unconfirmed.

The report that Dr. Fisher, an American, had been killed at Santa Rosalia by Villa bandits, could not be confirmed officially in Chihuahua, according to the passengers who said the news was brought to Chihuahua by a German. It was said the bandits there killed some Chinese, Arabs and Syrians, but these stories were pronounced vague.

General Herrera was ordered to proceed to Escalon, a station on the Mexican Central railway some distance below Jimenez and the bandits still occupy Jimenez, according to the passengers.

Trevino to Seek News.

Chihuahua City, Mex., Nov. 6.—General Trevino said here that as all telegraphic communication was cut between Chihuahua City and Parral, as well as to points south of Chihuahua City, he was unable to learn anything regarding Americans who had been in Parral.

He said, however, he would use every effort at his command to get news of them.

MINE GAS EXPLOSION TAKES TWENTY-FOUR

Birmingham, Ala., Nov. 6.—Nine white men and fifteen negroes lost their lives in a gas explosion in the Bessie mine of the Sloss-Sheffield Steel and Iron company, twenty miles west of here.

The cause of the explosion may never be known. Five men half a mile in the mines, hearing the explosion, covered their heads with their shirts and got out safely.

The explosion was the second in two weeks in this district, eight men being killed in the Marvel mines of the Roden Coal company, Oct. 22.

NINETY-TWO KILLED IN SHIP COLLISION

Belfast, Nov. 6.—The loss of life in the collision between the steamers Retriever and Connemara in the Irish channel aggregates ninety-two. Only two persons are known to have been saved.

The crew of the Retriever numbered thirteen, one of whom and also one passenger of the Connemara were saved.

The two vessels lie partly submerged within sight of land. Heavy seas are breaking over them.

CITIZENS BATTLE BANDITS

Attempt to Rob Bank at Randolph, Minn., Fails.

St. Paul, Nov. 6.—In a battle between bandits and citizens in the village of Randolph, thirty-three miles from St. Paul on the Great Western railroad, two of the bandits were wounded by farmers seeking to protect the bank.

None of the citizens was injured, though many narrowly escaped death from the pistols of the robbers.

The bandits were frightened away from the bank before they could open the inner burglar-proof safe. The bank has no vault.

Danish Ship Burns at Sea.

London, Nov. 6.—The Danish ship Esbern Sorensen has been abandoned at sea on fire. The crew was saved and landed at St. Michael's, Azores. The Norwegian steamer Kronfjord is in Havre Roads with its cargo on fire.

Negro Hanged to Bridge.

Bay City, Tex., Nov. 6.—Joe Johnson, a negro, was taken from the sheriff's office near here and hanged to a bridge by a mob of fifty men well armed and masked. Johnson was accused of killing a white man.

British Steamer in Flames.

London, Nov. 6.—A Lloyd's dispatch from Falmouth reports the British steamer Ponus ashore and on fire in Falmouth bay.

Argentine Corn Dumped on the Peoria Market

BY GEORGE F. AUTHIER (Minneapolis Tribune)

Just as the adherents of Woodrow Wilson are congratulating themselves that they have lulled the public into forgetfulness of the Underwood tariff law before the war intervened, to save the country from the consequences of that folly, comes a report from Peoria, Illinois, which strikingly illustrates the unprotected condition of American industry and American agriculture. According to that report a million bushels of Argentine corn have been dumped on the Peoria market, and co-incident with that report the market price dropped.

While the farmers of the northwest have been reveling in \$2.00 wheat there has been an undercurrent of realization that this was a temporary condition, and that the close of the European war would throw that section of the country wide open to the competition of Canada. The competition that may come from Australia, Russia and the Argentine has not been so seriously considered as that from Canada, but the Wilson managers had hoped that the great corn belt section would be undisturbed. Apparently there was no danger of competition in the field occupied by King Corn. Just at this moment comes the bursting of the bomb in connection with the Peoria corn shipment. Peoria is the center of the corn section of the United States. It senses corn values and knows where the cheapest product may be obtained.

The report that a million bushels of the Argentine product was dumped in one shipment on the market is given additional force by the fact, that a million bushels had already been used in the manufacture of glucose. The fact that it is cheaper to ship Argentine corn to Peoria at this time than it is to buy American corn is made the more remarkable on account of war conditions. Ocean freight rates have gone sky-rocketing, and the shipment of products from foreign countries is almost prohibitive, except in case of actual necessity.

When the war closes these conditions will not prevail. Freight shipments will be reduced to a normal level, and if it is possible to ship Argentine corn into the United States at a time when freight charges are almost prohibitive it can easily be seen there will be a tremendous influx of the same product when the war ceases.

The Underwood tariff law calmly places corn in the free list. Just as President Wilson, with literary emphasis, proposed that American business men shall compete with their wits with the rest of the world, so American farmers are told they can compete in the same manner. Just as industrial conditions in America are different from those of Europe and the orient, so farming conditions are different in the Argentine. Instead of the small farm there are large estates operated with cheap labor imported from southern Europe. American farmers cannot compete with these conditions. This new situation is recognized in the south. Municipal docks are being prepared in New Orleans to handle this immense traffic. Elevators with capacity of 600,000 bushels a day are already constructed, and it is announced that the city of New Orleans is prepared to build additional elevators if they are required.

The invasion of Argentine corn is an accomplished fact, and the raiser of American wheat must make up their minds to face this competition when the war closes without the aid of any protection in the way of tariff duties. This invasion by Argentine corn is not the only evidence that America is wholly unprotected against the war that will come after the war. Europe and Asia are preparing for this struggle. Economical alliances will follow the alliances for war. Tariff unions and customs reprisals will be adopted. The governments of Europe, and that of Japan will use their power over natural resources, industrial capacity, financial ability, merchandising genius and shipping tonnage to subdue the neutral markets of the world.

The prosperity that exists in America today is not entirely due to the manufacture of munitions. The war has built an automatic tariff wall which holds the immense market of America to a large degree for itself. When the war closes our foreign markets will be cut off and our domestic markets will be captured by a competing world. In the long run it is probably more important that the American people should recover from the spiritual debauchery of the last four years and learn once more to wear their souls on straight, but self

(Prepared by F. J. Thielman, St. Cloud, Minn.)

PLATFORM

1. For good roads and Home Rule Platform.
2. Equal Suffrage.
3. An eight hour day for the workmen, and minimum wage law.
4. Rigid enforcement of the laws.
5. Good government conducted on economic and business-like principles.
6. Strict economy in the appropriation and disbursements of public moneys.
7. Fair and equitable system of taxation, and aid from the State for local schools, thus reducing taxation.
8. For rapid development of the agricultural, commercial and mining interests in Northern Minnesota.
9. Division of gross earnings tax so that the Brainerd shops will be taxed as city property, and which will raise the valuation and reduce taxation considerable, and allow more money for public and necessary improvements.
10. Amendment of Workmen's Compensation Act so that the workmen who are injured will receive benefit for the first two weeks of injury, which they do not now secure, and raising the present compensation during injury from the present rate of 50 per cent to 66 2/3 per cent of their wages, and other reasonable beneficial amendments.

HISTORY.

Mr. Hilding A. Swanson, your candidate to the Minnesota State Legislature from Crow Wing County, was born on a farm 31 years ago. He came to Brainerd 26 years ago, after living a few years at Gull River, and since he was 13 years old, has worked at the saw mill and at the Brainerd shops of the Northern Pacific as clerk and at other manual occupations. He worked his way through six years of college work at Valparaiso University, and his law course at Yale University. Practiced law four years and was and is associated with his brother, Gothfred S. Swanson, and while he was County Attorney.

He is not ashamed to tell you that he has energetically worked to secure an education; he has become fully acquainted with the demands and necessities of the farmers, workmen and business man, and that his energies in the Legislature will be spent in the right and honest legislation, and if he wins just watch his record. Your support at the General Election on Tuesday, November 7th, 1916, will be greatly appreciated.

REAL ESTATE MOVING FAST

Dust Storm Plagues Brainerd Sunday and Monday, Filling Everybody's Eyes up Full

GOGGLES SOON IN FASHION

Street Sprinkler Not in Evidence Early in the Morning, Sorely Needed at Present

Real estate was moving fast Sunday and Monday. A gale approaching 30 miles an hour speed whirled dirt about the city and blew it into people's eyes. If every person eats a peck of dirt in his earthly career, some were getting more than their daily share yesterday and today.

Stores and residences found the sand sifted through doors and windows and many a housewife had additional work to keep her home tidy and clean.

Brainerd's street sprinkler had not come to the front early this morning. If ever needed, it was in demand today. Trees have been pretty well stripped of their leaves and many branches were blown down.

Swaying telephone wires caused difficulty at times in getting clear connections.

GARAGE MEN CAUTIONED

People in Charge of Filling Stations and Garages Should Exercise Greatest Caution

Many garage firms from the smaller towns and villages of Minnesota are being reported, says Robert W. Hargadine, state fire marshal.

Four men were injured, one probably fatally, as a result of careless placing of a barrel of gasoline in a garage at Clinton last week.

Persons conducting garages are evidently becoming careless and it is important that the dangerous element in gasoline should never be overlooked for an instant. The absent-minded man who places a burning cigar or cigarette stub near a barrel of gasoline, or who takes a lighted lamp into a garage is taking his life in his hands and is also criminally negligent in relation to the destruction of property.

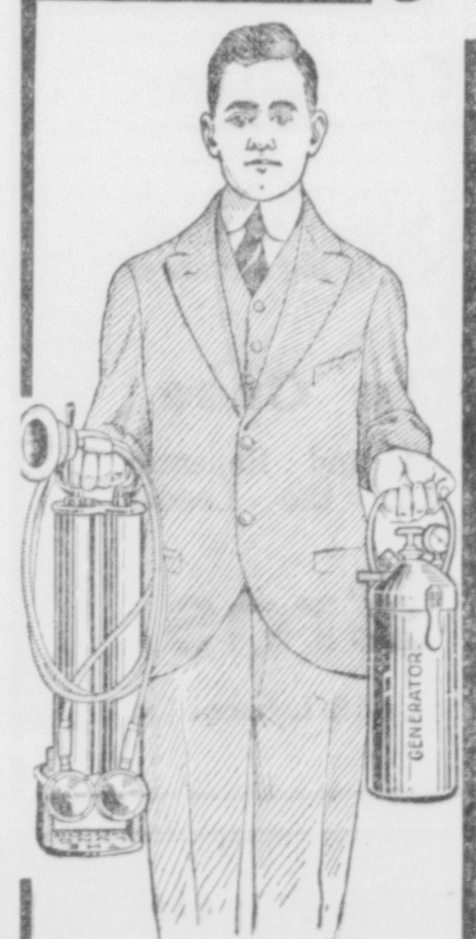

Never take chances. Be sure the gasoline tank even though it is outside of the garage is perfectly tight, and never, above all things, fail to observe the common rule of caution.

STRAWBERRIES GROWING

P. B. Nettleton Exhibited One of the Ever Bearing Kind, Growing in N. E. Brainerd

Northeast Brainerd is a garden spot in the production of potatoes, celery, onions, and strawberries. P. B. Nettleton today brought to the Dispatch office a big strawberry, one of the Ever Bearing kind, which has about matured in the open air and braved all kinds of frost, being protected by the thick leaves of the plant.

Mr. Nettleton also referred to the big production of onions on a half-acre patch, 250 bushels, which the owner, David Ebinger sold at \$1 a bushel. Three years ago Mr. Ebinger raised 400 bushels on the same tract.

LIVE TOPICS AT FARMERS CLUB

C. E. Colquhoun, Crow Wing county agricultural agent, visited the Ross Lake Farmers' club Saturday evening and 50 club members were present. The meeting was held in a large barn, Mr. McGregor presiding. It was the first meeting since organization.

The club, in its winter program, will take up better roads, consolidated school and the standardization of livestock.

GRANVILLE JONES

Noted Lecturer Furnished Second Number of Lyceum Course at Gardner Auditorium

Granville Jones, noted southern orator, furnished the second number of the lyceum course at Gardner auditorium being given under the auspices of the Baraca class of the First Baptist church.

His message was one that gripped the heart. He pleaded for the work of homes, churches and schools, on which he founded the basis of this great republic.

Keen wit, wholesome humor, genuine eloquence and good, hard common sense abounded in the lecture. For the benefit of parents who are vexed by what is known as the boy problem, this lecture should be put in pamphlet form and a copy placed in every home in the land.

"This nation rests on its hearth stones," said Mr. Jones. He paid a tribute to the army of teachers. Ignorance is the peril that threatens America, a peril from within and not from beyond the borders.

"Take your boy into partnership on the farm, give him a few acres to till as he likes and you will have no boys leaving the farm to choke up an already crowded city," said Mr. Jones.

People laughed until near tears when he described the average boy's room on the farm, a garret which was the receptacle for all the cast off furniture, glass ware, china ware, etc. When anything had no more value it was considered good enough to dump in the boy's room.

"We're electing Wilson right along," said Col. C. D. Johnson, of the Johnson Pharmacy. "On November 2 the Rexall straw vote recorded 398 for Wilson and 223 for Hughes. On November 3 there was a change, Wilson polling 295 and Hughes 236."

GALE IMPERILS NEW YORKERS

Money Rescues Effected in Outer Bay by Coast Guards

New York, Nov. 6.—Volunteer life savers and coast guard crews rescued more than fifty persons in the outer bay when a northeast gale drove inland disabled motorboats and small fishing craft.

Coast guards from the Sandy Hook station went to the rescue of three power boats, in one of which were twenty fishermen. Another boat drifted ashore at Sandy Hook with thirty-three fishermen clinging to the sides.

VALUE OF FARM LANDS INCREASED

J. G. Dawes, of the Dawes Farm Land Agency, Gives Reasons Why an Advance is Due

NOW IS THE BEST TIME TO BUY

Prices for Farm Products are the Highest Since the Civil War. Land at Bottom Prices

In an interview accorded the Dispatch, J. G. Dawes, head of the Dawes Farm Land Agency, stated that now was the time to buy land, as in his opinion the bottom had been reached in prices.

"Consequently," said Mr. Dawes, "There remains but one direction for good agricultural lands to move and that is to advance in price for the following reasons:

"The prices for general farm products have reached the highest point since the civil war. Land, on the other hand, has stood dormant, and at bottom prices.

"I attribute this to the following conditions. First, the corn crop of 1915 throughout the corn growing portion of this state and adjoining states, was almost a complete failure, which materially affected the financial condition of those who contemplated coming into the newer portion of this and other states and purchasing the cheaper lands with an endeavor to make homes of their own.

"Then again, for the past months the country has been jarred through fear of war or troubles with other nations, this having a great tendency to retard any investments by capitalists.

"Then in addition to this our own nation has been absorbed in politics, being presidential year.

"But now the fear of war has vanished. And the political campaign will be over in a few days. With the prices of farm products still at such a high notch and stocks of all kinds of farm products so far below normal—it will take at least three good average crops to replace our stocks to a normal condition. This added to the export market will tend to hold prices at a high level for at least three years.

"Consequently I anticipate six months after election a great improvement in the movement of good agricultural land will begin to show itself. So if you anticipate buying a farm, now is the time to buy."

BOTH SIDES IN FINAL DRIVES OF CAMPAIGN

New York, Nov. 6.—Candidates, party managers and political workers whose activities are centered in New York spent the day in comparative quiet preparing for the final drive to make the most of the new remaining hours before election.

While both Democrats and Republicans profess entire confidence in the outcome of the voting Tuesday they are taking no chances on making political slips or errors.

Final orders have gone out from the headquarters here of the national committees to the chiefs in other states, but instructions will be transmitted to subchiefs and lieutenants all the way down to the primary captains.

Charles E. Hughes, Republican presidential candidate, announced he considers his campaign closed and he has no further statement to make.

While Mr. Hughes was resting at his hotel here, President Wilson was spending the day quietly at his Long Branch, N. J., residence. The President's final message to state and county chairmen, wired from Long Branch, was made public at Democratic headquarters.

The election day weather forecast, issued in Washington, indicates Tuesday will be generally fair, with moderate temperature, in nearly all parts of the United States. The weather will be unsettled, however, in the region of the Great Lakes and the extreme Upper Mississippi valley, and rains are probable in the North Pacific states and the North Rocky mountain region, according to the forecast.

IDEAL OPENING

Banquet Sunday Evening Attended by Over 100, Many Out of Town Guests Present

The opening of the remodeled Ideal hotel was marked by a fine banquet given Sunday evening from 6:30 to 10 o'clock and attended by over 100 people. The hotel, bright as a pin and remodeled, refurnished and decorated, spelled a welcome to the guests. The big electric sign flashed out. Bright lights illuminated the interior. Edwin Harris Bergh and Miss Cecil Witham played a program of choice selections.

All tables were decorated with flowers and extra waiters had been added to the force. The dining room has been enlarged to twice its former size and the room was filled for hours.

Among the out of town guests were Mr. and Mrs. L. J. Alberts, Miss Ruth Alberts and young sister, County Commissioner John A. Oberg and wife, of Deerwood; Miss Ellen Theorin of Staples, Gust Franson of Minneapolis.

Mr. and Mrs. Wm. T. Larrabee received many congratulations on the success of the evening and the fine dinner served.

Be Careful of Gas Heater

By SAMUEL G. DIXON
Pennsylvania Commissioner of Health

This is the season of the year when many people instead of starting their furnaces use gas stoves to take off the chill. Not infrequently they use rubber pipe connections and in the majority of cases the stoves are not connected with a flue. Such an arrangement is dangerous in the extreme. Every year many deaths are reported as a result of just such conditions. Coal gas or water gas contains a large percentage of carbon monoxide and this having little or no perceptible odor may be present without being noticed. There is no warning and unless material having an odor is added to the gas, the victim becomes unconscious and unless aid arrives a fatal result is almost certain to follow.

Do not use a gas stove without flue connections and proper ventilation.

Gas water heaters are often installed in bath rooms without outside connections and then these are made use of to heat the room. Such arrangements are extremely hazardous.

MIGHT CAUSE NEW TANGLE

Presence of Armed U-Boat as Convoy to Deutschland.

Washington, Nov. 6.—Washington officials are somewhat puzzled as to the status of the Deutschland, should reports that the U-boat will be conveyed back to Germany by a fighting submarine prove correct.

Belief was expressed in some quarters that if the two submarines should act in concert it would greatly strengthen the British contention that submarines are always to be held in suspicion as vessels of warlike character. There was no doubt, it was said, that the British would hold the joining of the submarines to be prima facie evidence of warlike intention.

The unarmed U-boat, it was pointed out, posing as a peaceful merchantman could through her ability to escape detection give valuable assistance to the war submarine.

ELECTION TO HINDER HIGH COURT'S WORK

Washington, Nov. 6.—Election activities will affect in some measure this week's work of the supreme court. Few important cases are on the docket for argument during the week, several having been passed because attorneys desired to remain at home for the election period.

The court will be in session as usual on election day, but one or more of the justices having residences within easy reach of Washington may go home to vote. In past years few of the justices have attempted to vote, most of them coming from too distant states.

Among the more important cases to be argued this week are those testing the constitutionality of federal and state liquor legislation, the Webb-Kenyon act of congress and the West Virginia prohibition law.

\$9,709,000 ADDED TO HILL ESTATE VALUE

St. Paul, Nov. 6.—The Minnesota tax commission has announced increases in assessed valuations of Ramsey county property owned May 1 by the late James J. Hill of \$1,337,116 on personal property and \$8,372,471 on monies and credits over the county assessor's returns.

The personal property assessment of the railroad builder was increased from \$223,365, as returned by the assessor, to \$1,560,481. Assuming the Ramsey county rate on personal property for 1916 will be 43 mills, the new assessment will increase the tax to be paid \$57,436, or from \$9,694 computed on the assessor's total to \$57,109 on the new valuation.

The monies and credits assessments, returned at \$899,529 by the county assessor, was increased to \$9,173,999. Under the fixed rate of 2 mills the tax increase on this class will be \$25,128, or from \$2,491 under the assessor's return to \$27,519 on the new assessment.

KEEP LOOKING YOUNG

It's Easy—If You Know Dr. Edwards' Olive Tablets

The secret of keeping young is to feel young—to do this you must watch your liver and bowels—there's no need of having a sallow complexion—dark rings under your eyes—pimples—a bilious look in your face—dull eyes with no sparkle. Your doctor will tell you ninety per cent of all sickness comes from inactive bowels and liver.

Dr. Edwards, a well-known physician in Ohio, perfected a vegetable compound mixed with olive oil to act on the liver and bowels, which he gave to his patients for years.

Dr. Edwards' Olive Tablets, the substitute for calomel, are gentle in their action, yet always effective. They bring about that exuberance of spirit, that natural buoyancy which should be enjoyed by everyone, by toning up the liver and clearing the system of impurities.

You will know Dr. Edwards' Olive Tablets by their olive color. 10c and 25c per box. All druggists.

MIKE GIBBONS VS JACK DILLON

To Box at St. Paul Auditorium Friday Night, Nov. 10, for the Championship Belt

WONDERFUL RING BATTLES

Gibbons has Beaten Virtually Every Middleweight in the World

After a continuous wrangle, dragged over three years, Mike Gibbons of St. Paul, acknowledged world's champion boxer, and Jack Dillon of Indianapolis, the giant killer who, besides beating all middleweights, Mike Gibbons excepted, to say nothing of many heavy men, have been matched to box for the world's championship belt at the St. Paul Auditorium on Friday night, November 10.
To Harry Sherman, president of the Elliott-Sherman Film corporation which controls the Birth of a Nation, Ramona, The Crisls and other film spectacles, falls the credit of accomplishing that which spelled failure for every promoter in the country. Recently Harry Sherman and his business partner, Jack Elliott, acquired the stock of the St. Paul and Minneapolis boxing clubs. More recently Mike Gibbons placed his entire business in the hands of Mr. Sherman.
With Gibbons eager to meet Dillon and the Indianapolis man just as eager to clash with the world's clearest boxer, the fans are awaiting the moment when the two wonderful ring battles clash in the St. Paul ring. No match in recent years has created so much country-wide interest and when, on November 10, these two middleweight championship title contenders meet to settle the question of supremacy, fans from all over the country and Canada will be at the ringside.
Gibbons has beaten virtually every middleweight in the world, Jimmy Clabby, Eddie McGoorty, Young Thren, Jeff Smith and Bob McAllister included while Dillon has beaten many middleweights and many more light heavy and heavyweights. Since he murdered Stanley Ketchel, middleweight champion of the world, there has been no real recognized champion, although both Gibbons and Dillon are considered the best two in the country. So, when they to clash on November 10, the fans are going to see a contest, the result of which means a great deal to the world of boxing in general.
Dillon has agreed to make 161 pounds for Gibbons and both men have posted \$2,500 for weight and appearance.

Suggest Many Changes in National League

BY HAMILTON
United Press Staff Correspondent
New York, Nov. 6.—The elimination of the spitball—in fact, the elimination of the use of any foreign substance as an aid to the pitcher; the question of raising the player limit; the complaints regarding short fences and bleacher walls; John McGraws fall from grace; umpire baiting; world's series changes—all these and many other questions will be well thrashed out when the National League magnates get together December 12 for their annual gab-fest in New York.

Gov. Tener, president of the National league, is one of those who believes in the elimination of the spitball and its variations. A pitcher Gov. Tener, believes, should have no need for outside agencies, and the cleanliness of the game has something to do with his opinion. He believes, along with a great many others, that the spit-ball is just a wee bit indecent and repulsive.
The change of the player limit has found many champions and it is one of the things that magnates and critics alike expect will be doctored. Clubs have suffered because they didn't have an adequate number of substitutes to carry on their games. The Philadelphia and Boston clubs are two examples of this. The New York Giants and the Phillies are expected to lead a fight for the rescinding of the twentyone player rule.
The short bleacher way in Philadelphia is certain to come in for discussion. It is obviously unfair to opposing clubs to count all balls into the left field bleachers home runs. The wall is low and many a drive which would be good for only two bases in other parks, bounds into the bleachers for a circuit clout. As the Phillies play many more games there than any other club they get too many whacks at the short wall, opposing clubs contend, and they will make an effort to have something done about it.
John McGraw's statements are certain to be aired when the magnates get their fanning started. Several of them are said to be in favor of rigid discipline for the Giants leader.
Umpire baiting has been carried on without regard to the open season in the National league and the good work started last season for the benefit of the Braves probably will be carried to a satisfactory conclusion.

War Thins Americans from Foreign Ranks

BY HENRY WOOD.
(United Press Staff Correspondent.)

With the French Foreign Legion, France, Oct. 19 (By Mail)—Eight hundred odd Americans enlisted in the famous French Foreign Legion in the early part of the war.

The Legion, which is one of the finest fighting regiments in France, has participated in nearly all of the big offensives to date, and many of the American volunteers were killed or permanently wounded in these actions. The American contingent suffered especially heavy during the big French offensive in Champagne last September, where, the regiment, as usual, covered itself with glory.

Since then, fully 50 of the American legionaries have been transferred at their own request into the Franco-American flying corps; others have secured their discharge, while quite recently the remaining ones have manifested an ardent desire to get into the French regiments which the French government has finally permitted them to do.

The Legion at the present moment is defending one of the more quiet sections of the French front, where the first line trenches run just in front of one of the most beautiful and most historic chateaus of France. The chateau itself has been completely destroyed by the Germans, but the grounds, in which the Legion is encamped, remain almost as beautiful as ever.

The transfer of the Legion into this ideal spot for a few weeks of quiet trench fighting is recompense for the brilliant part played by it in the early part of the Somme offensive, where it suffered heavy losses.

Almost the first man whom I met in the Legion, after the officers, was a 19 year-old boy of St. Louis, Missouri. Although a member of the Legion for only the past nine months he is proudly wearing the much coveted decoration of the Croix de Guerre which he won in a brilliant bayonet charge on the Somme.

Of the original 100 American volunteers, who sailed from New York on the Rochambeau August 4, 1914, immediately following the declaration of war, only four remain. These are a Lieutenant of Seattle, who is undergoing special treatment at Paris for a bullet through the lungs; a sergeant of New Orleans; a private of San Francisco and a private of New York.

In the Legion's brilliant bayonet charges on the Somme three out of the four battalion commanders were killed, the remaining one, Commander Weddell, an Englishman, having been decorated with the Legion of Honor for his bravery.

Numerically, the Legion has suffered heavily since the beginning of the war, owing to the large number

WILLIAM F. DONOHUE.
Democratic Candidate for Congress, Sixth Minnesota District.

William F. Donohue was born at Hudson, Wis., and his boyhood days were spent on a farm near New Richmond, Wis. He attended the public schools of the latter village, after which he taught school for a short time. He was next employed as a traveling salesman, following that occupation for about two years. Mr. Donohue then entered the law department of the University of Minnesota, from which he was graduated in June, 1896. He was immediately admitted to the bar and in the same month he located at Melrose, Minn., where he has practiced his profession ever since. He was married June 2, 1897. Mr. Donohue has been a member of the state legislature, county attorney of Stearns county for two terms, candidate of his party for attorney general of Minnesota, and was a delegate to the national convention of the Democratic party this year.

of volunteers who have been released in order to return home and fight with their own armies. The Italians, for example, returned home when Italy declared war; the Greeks at the moment of Greek mobilization, and the Rumanians with their country's entrance in to the conflict.

Nevertheless, the Legion still has members from forty-eight different nations. One of the few Greeks remaining, told me he had come all the way from Jerusalem to fight for France and had preferred to remain rather than return to his own colors. Likewise, a remaining Italian, who had lived all his life only two days "on foot" from Rome without ever having seen the "Eternal City" had preferred to continue fighting for France rather than return to his native land.

Lansing in Favor of Registration by Mail

Washington, Nov. 6.—Urging that the drain on the time and pocket-books of those in the service of the Federal Government could be cut in half, Secretary of State Robert Lansing has come out strongly in favor of legislation permitting voters to register by mail. Mr. Lansing pointed out that under the laws of most states at present it is necessary for the voter to make the trip to his legal residence to register, and then either remain there until election day or stand the expense of coming back to Washington and returning to his voting place to go to the polls.

Thousands of government employees will lose their privilege of voting this year because of the prohibitive cost of making two trips to their home towns. Secretary Lansing would cut this cost in half by enactment of legislation permitting government employees to have their names placed on the voting lists by affidavit, without being compelled to register personally. He would extend this power to the men outside the government by empowering the courts to accept registration affidavits and issue proper certifications.

Several states have taken up a movement, of which Iowa was the pioneer, permitting both registration and voting by mail.

John A. Oberg
Non-Partisan Nominee For STATE REPRESENTATIVE
Crow Wing County, Minn.
53rd Legislative District
General Election, Tuesday, Nov. 7, 1916

MY PLATFORM

I respectfully solicit the support of the voters of Crow Wing County at the general election, Nov. 7, 1916, and if elected, I pledge my best efforts to the interests of the people of Crow Wing county and the northern part of the state.

I advocate, and if elected, will support:

Reduced tax rate by greater state aid for schools according to local tax levy.

Greater state aid for roads and bridges.

Will support any legislative measure tending to the development of state land by the state.

A more equitable division of Gross Earnings tax.

Any legislation that will help compel proper business-like economy and increase the efficiency of administration of the state's business affairs.

Amendment of Workmen's Compensation Act as proposed by the State Federation of Labor.

I believe firmly in the rule of the people, and if elected shall support every measure which may tend to increase the power of the people in state government, and all measures that assist in the betterment of conditions in rural communities.

A strong plurality for the General

If the vote tomorrow were to be cast for most popular roofing, instead of for the election of national officials, there would be an overwhelming plurality in favor of CERTAIN-TEED Roofing.

This is indicated by the fact that "The General" makes 3/4 of all the asphalt roll roofing made in America. The balance is "scattered" among 39 other manufacturers.

Each year CERTAIN-TEED rolls up a strikingly increasing number of advocates, because this type of roof is coming to be recognized as the most efficient covering for all kinds of buildings, with either flat or pitched roofs.

Certain-teed Roofing

is clean and sanitary, costs less to buy, less to lay, less to maintain and less per year of life. It is guaranteed for 5, 10 or 15 years, according to ply (1, 2 or 3). It actually lasts longer.

The secret of this long life lies in the quality of the roofing felt, and the asphalt saturation. Roofings do not wear out—their life depends upon the length of time they retain the saturation. CERTAIN-TEED is made of the best quality of roofing felt; and is thoroughly saturated with the General's own blend of soft asphalt, which keeps the inner saturation soft and prevents the drying-out process so destructive to the ordinary roofing.

CERTAIN-TEED is made in rolls; also in slate-surfaced shingles. There is a type of CERTAIN-TEED for every kind of building, with flat or pitched roofs, from the largest sky-scraper to the smallest residence or out-building.

CERTAIN-TEED is sold by responsible dealers all over the world, at reasonable prices. Investigate it before you decide on any type of roof.
